- Rural Residential
- Public Parkland

ZONING DISTRICT BOUNDARIES

District Boundary lines are intended to follow or run parallel to the center of the streets, streams and lot or property lines as the are listed in the County Recorder of Deeds Office at the time of the enactment of the Zoning Ordinance, unless such District Boundary lines are fixed by dimension as shown on the Zoning Map. In any case of uncertainty the Delaware Township Board of Supervisors, and consultation with the Planning Commission, shall interpret the intent of the map as to the location of District Boundaries. This map is based on the Delaware Township Zoning Ordinance in effect on April 17, 1986. This is not the Official Zoning Map. While care has been taken to make this map as accurate as possible, the only official Township Zoning Map is the map maintained in the Delaware Township Municipal Offices. In the case of any discrepancies between this map and the official map, the official map shall prevail.
